

FoodShala

An online food ordering system.

an MVP designed and developed by Smit Taunk for Internshala

Configuration

Please make the following changes after downloading the project files.

1. Change the **\$config['base_url']= 'http://localhost/<foldername>/';**
In the <folder_name>/application/config/config.php.
2. Create a database named **foodshala_st** and import from the given **foodshala_st.sql** file
3. Change the **username**, **password**, and **database** name to your personal settings. Currently, it is set to **root**, "**foodshala_st**" respectively.

Technical Specification

Foodhshala is a real-time MVP Product where the restaurant owner can list their food items and the customer can order food items. The application is built using **PHP** and **CodeIgniter framework** for backend and **Bootstrap**, **CSS**, **HTML**, **JS** for frontend, **MySQL** has been used as a database.

Sample Users

Please use the following test credentials for login and testing the application

For customer login:

username: **cust1@gmail.com** password: **123456**

username: **cust2@gmail.com** password: **123456**

For Restaurant Login:

username: **rest1@gmail.com** password: **654321**

username: **rest2@gmail.com** password: **654321**

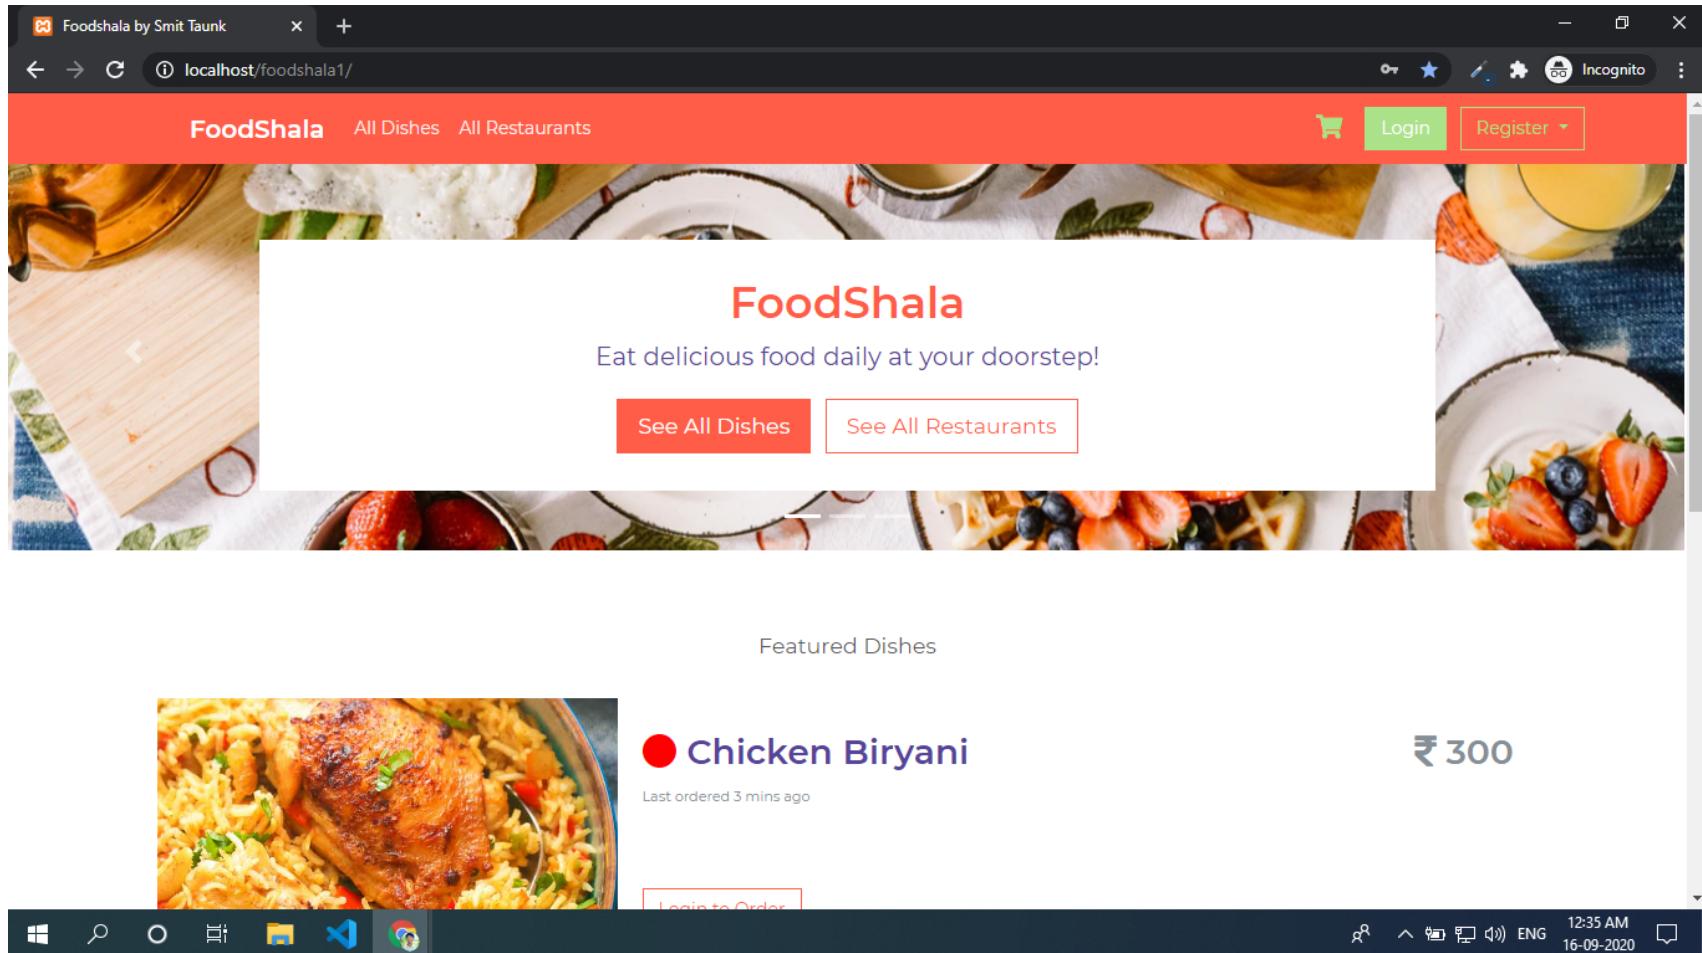

Thanks and Regards,

Smit Taunk

Below are the screenshots of the working application

Screenshots

Home Page

The screenshot shows a web browser window for 'FoodShala by Smit Taunk' at 'localhost/foodshala1/'. The header features the 'FoodShala' logo, navigation links for 'All Dishes' and 'All Restaurants', and user account buttons for 'Login' and 'Register'. Below the header is a large, vibrant photograph of various food items, including a bowl of biryani, a plate of fruit, and a glass of juice. A central white overlay contains the 'FoodShala' logo in red, the tagline 'Eat delicious food daily at your doorstep!', and two buttons: 'See All Dishes' and 'See All Restaurants'. The main content area below shows a 'Featured Dishes' section with an image of 'Chicken Biryani' (last ordered 3 mins ago), its price of ₹ 300, and a 'Login to Order' button. The bottom of the screen shows the Windows taskbar with various pinned icons and system status indicators.

Login

The screenshot shows a web browser window with multiple tabs open. The active tab is for 'FoodShala by Smit Taunk' at the URL 'foodshala-st.000webhostapp.com'. A 'Not secure' warning is visible in the address bar. The main content area displays a 'Login to FoodShala' form over a background image of various food items. The form includes fields for 'Email address' and 'Password', and buttons for 'Login' and 'Forgot password?'. The browser's taskbar at the bottom shows icons for File Explorer, Microsoft Edge, and other applications.

6	Roti from: Royal Restaurant	₹ 20/-	order placed at 2020-09-16 01:04:02

The taskbar at the bottom shows various pinned icons and the system clock indicating '01:36 AM 16-09-2020'.

All dishes page when a restaurant owner is logged in

Screenshot of the FoodShala application interface showing the All Dishes page for a restaurant owner.

The browser title is "FoodShala by Smit Taunk". The URL in the address bar is "localhost/foodshala1/index.php/Foodshala/dishes".

The top navigation bar includes:

- FoodShala logo
- All Dishes
- All Restaurants
- Hello, Doe (with a shopping cart icon)
- Go to Dashboard
- Your orders
- Logout

The main content area displays four dish cards:

- Veg Biryani** (Green text)
Khana Khazana ★5/5
Serves: 2 Cost: ₹200
Please Login as customer to order
- Paneer Butter Masala** (Green text)
Royal Restaurant ★5/5
Serves: 4 Cost: ₹200
Please Login as customer to order
- Chicken Biryani** (Red text)
Royal Restaurant ★5/5
Serves: 2 Cost: ₹300
Please Login as customer to order
- Lassi** (Green text)
Royal Restaurant ★1/5
Serves: 1 Cost: ₹50
Please Login as customer to order

Below the cards are two more dish images:

- Chapati and Chole (Chickpeas) served on a plate.
- A bowl of Egg Curry (Omelette Curry) garnished with cilantro.
- A large pot of Dal Makhni (Yellow Lentil Curry) garnished with cilantro and a lime wedge.
- A platter of various Indian sweets (Mithai).

The taskbar at the bottom shows several pinned icons: File Explorer, Microsoft Word, Microsoft Excel, Microsoft Powerpoint, Microsoft OneNote, Microsoft Edge, and Google Chrome.

The system tray indicates the date and time as 01:37 AM, 16-09-2020, and language as ENG.

All Restaurants Page

The screenshot shows a web browser window for 'Foodshala by Smit Taunk' at the URL 'localhost/foodshala1/index.php/Foodshala/restaurants'. The page has a red header bar with the 'FoodShala' logo, 'All Dishes', 'All Restaurants' links, and a user profile for 'Hello, Doe' with options to 'Go to Dashboard', 'Your orders', and 'Logout'. Below the header are two restaurant cards:

- Royal Restaurant**: Located in Indira Nagar, Delhi. It has a rating of ★2/5. A button labeled 'Browse Dishes from Royal Restaurant' is shown.
- Khana Khazana**: Located in Shanti Nagar, Delhi. It has a rating of ★5/5. A button labeled 'Browse Dishes from Khana Khazana' is shown.

Dashboard For Restaurant owner to track orders

The screenshot shows a web browser window titled "FoodShala - Admin Area" displaying a dashboard for managing restaurant orders. The URL in the address bar is "localhost/foodshala1/index.php/Foodshala/orders/".

The dashboard features a sidebar on the left with the following navigation links:

- Dashboard
- Orders** (highlighted in red)
- View Full Menu
- + Add Food Items

The main content area is titled "Orders" and displays a table with the following data:

S.No	Customer Name	Food Name	Type	Cost
1	Customer1	Chicken Biryani	nonveg	₹300
2	Customer1	Roti	veg	₹20
3	Customer1	Lassi	veg	₹50
4	Customer1	Paneer Butter Masala	veg	₹200
5	Customer2	Chicken Biryani	nonveg	₹300

The system interface includes a top navigation bar with icons for search, refresh, and other functions. The bottom taskbar shows various open applications, and the system tray indicates the date and time as 16-09-2020 at 01:07 AM.

Page to manage food items

The screenshot shows a web browser window titled "FoodShala - Admin Area" with the URL "localhost/foodshala1/index.php/Foodshala/menu/". The page displays a menu management interface. On the left, there's a sidebar with links for Dashboard, Orders, View Full Menu (which is highlighted in red), and Add Food Items. The main content area is titled "Menu" and contains a table with the following data:

S.No	Food Name	Type	Serves	Cost	Action
1	Paneer Butter Masala	veg	4	₹ 200	<button>Delete</button>
2	Chicken Biryani	nonveg	2	₹ 300	<button>Delete</button>
3	Lassi	veg	1	₹ 50	<button>Delete</button>
4	Roti	veg	1	₹ 20	<button>Delete</button>
5	Laccha Paratha	veg	2	₹ 50	<button>Delete</button>

The status bar at the bottom shows system icons and the date/time: 01:07 AM 16-09-2020.

Page to add a new food item

The screenshot shows a web browser window for 'FoodShala - Admin Area' at the URL localhost/foodshala1/index.php/Foodshala/add_food/. The browser has several tabs open in the background, including 'Welcome to CodeIgniter...', 'Fillup', 'Jobs', 'master th.VIT', 'AngularJS', 'FF Beautify', 'W3Schools Online...', 'Login-Signup-Email...', '13 helpful email tem...', and 'Login - My Perfect...'. The main content area displays the 'Add Food Item' form. On the left, there's a sidebar with links: 'Dashboard', 'Orders', 'View Full Menu', and a red-highlighted 'Add Food Items' button. The main form fields include: 'Dish Name' (text input: 'Enter Dish Name'), 'Dish Type' (radio buttons: 'Veg' and 'Non Veg'), 'Serves' (radio buttons: '1 (One)', '2 (Two)', '3 (Three)', '4 (Four)', '5 (Five)'), 'Dish Picture' (input field: 'Choose File' with placeholder 'No file chosen'), a note 'Add a reference image for the dish to help Customers.', 'Cost' (text input: 'Enter Dish Cost'), and a red 'Add Food Item' button.
